About Me

Fresh graduate with a Bachelor of Science in Information Technology from Northern Bukidnon State College. Passionate about technology, web development, and data management. Through my internship and academic projects, I gained hands-on experience in web application development, system testing, technical documentation, and database management.

I am a fast learner, detail-oriented, and eager to continuously improve my technical skills while contributing to an organization's success. I am seeking an entry-level position where I can apply my knowledge, gain professional experience, and grow as an IT professional.

TECHNICAL SKILLS

- HTML
- CSS
